

AMOS Projekt 5: Graphalyzer Pro

Definition of Done (DoD)

Content

[Functionality](#)

[Coding](#)

[Tests](#)

[Configuration Management](#)

1. Functionality

- the functionality described in the User Stories was realized completely and without mistakes
- the stories were demonstrated properly to the PO

2. Coding

- the code is complete (-> no work in progress, todos, ...)
- necessary Refactorings were done (-> no technical waste/hangovers)
- Clean Code rules were maintained
- every task was reviewed
- Coverage-Report was viewed and reviewed

3. Tests

- Unit Test for non trivial code is existing and was run
- Acceptance criteria were matched and automated acceptance tests are running completely

4. Configuration Management

- Main-Build successful
- Tag was set
